1. An examiner's amendment to the specification has been entered as follows:  
  
On page 2, line 25; replace "b" with – 3b --;  
  
On page 2, line 29; replace "b" with – 5b --;  
  
On page 2, line 32; replace "b" with –6b--;  
  
On page 3, line 1; replace "b" with –7b--.
2. Claims 1-17 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest to one of ordinary skill in the art, the gratings are of the "same spatial frequency, and that the relief structures differ by their azimuth relative to the radial direction and/or by a symmetrical or asymmetrical relief profile" in conjunction with all the other limitations of independent claim 1, or that "the grating vectors of all gratings of the M groups are radially oriented, that in each of the M groups the spatial frequency of the relief structure is selected in dependence of the radial spacing of the field from the center point of the coin such that upon illumination of the relief structure by means of a light source in point from arranged perpendicularly above the center point, with the wavelength, one of the two partial beams of the diffracted light crosses the center point at a spacing which is predetermined for said group" in conjunction with all the other limitations of independent claim 2. Applicant's arguments relating to these features of the independent claims are considered persuasive.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
